

MY EXPERIENCE

Before going, I was very nervous because I had never left Spain. When I arrived there I was completely surprised because the village where I live in Spain is really ugly, and Bosa is perfect in that aspect. I think only one week was quite short, I had a lot of fun with my friends every moment.

I have loved all the places we have been in, they were very peaceful and beautiful. My experience with the Italian girl that took me in her house has been very good. I am very shy and I think some people thought I was not having fun, but I was having a lot of fun. It has been the best experience of my life for the moment; I have enjoyed it a lot.
